CERTIFICATE

Jennifer Bauer

has successfully completed

UX Design Career Track

A 350+ hour online UX design course that covers the end to end UX process including design thinking, user research, ideation, wireframing, user interface design, prototyping, usability testing, psychology principles, communication, and special topics. Jennifer Bauer completed a portfolio of three projects including a real-world industry design project, a design sprint, and a capstone project, "TravTemp", that was reviewed by an independent industry expert.
